

"Quality Products by Loyal Craftsmen" Steel Boilers & Water Heaters www.aldrichco.com

## D SERIES - OIL FIRED DG SERIES - GAS FIRED

COMPACT, SPACE SAVING DESIGN SPACE HEATING UP TO 15 PSI PROCESS STEAM UP TO 15 PSI VERTICAL FIRETUBE BOILER CAPACITIES: 115 – 1,675 MBH 80 - 83% EFFICIENCY GAS • OIL • GAS/OIL THERMAL SHOCK PROOF DESIGN WATER BACKED COMBUSTION EASY ACCESS TO BURNER BUILT/CERTIFIED TO ASME CODE

## **D & DG SERIES** 15 PSI STEAM BOILERS

The "D & DG" include a low stress thermal shock resistant single pass vertical design. With thousands of boilers installed worldwide this has proven to be a robust boiler design.

Primary flue gases pass via water backed heat transfer tubes. No refractory backed finned passages to burn out.

Large steam chamber with internal water separator insures high quality dry steam.

The "D & DG" Series may be factory constructed with an integral copper finned heat exchanger allowing the boiler the ability to provide both direct heating and indirect heating.

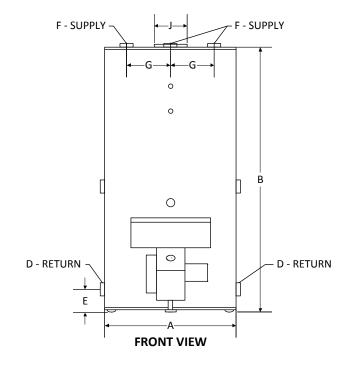

The forte of Aldrich Company has always been to only manufacture products of the highest quality and design, by using the finest materials available and employing loyal craftsmen with the skills and aptitude necessary towards this end. We outsource no sub-assemblies and we procure only domestic steel and tubing to fabricate our pressure vessels. All Aldrich boilers and water heaters are constructed and stamped to Section IV of the ASME code and registered with the National Board of Pressure Vessel Inspectors.

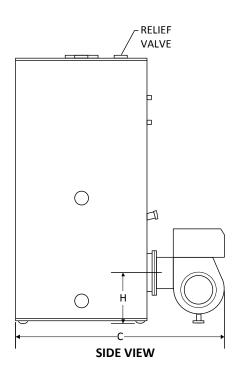

## BOILER RATINGS & DIMENSIONS - "D" OIL FIRED - "DG" GAS FIRED

| MODEL: D / DG         |                    | 130 | 160 | 220   | 280   | 360   | 450   | 530   | 610   | 730   | 890   | 900   | 1000  | 1250  | 1450  |
|-----------------------|--------------------|-----|-----|-------|-------|-------|-------|-------|-------|-------|-------|-------|-------|-------|-------|
